**Example: Question:** What is one effect that "sleep texting" might have on teens' success in school?

**Answer:** Teens might have trouble concentrating or fail a test because they didn't get enough sleep.

**Cite:** "Teens sometimes text during the night, which stops them from getting the 8 to 11 hours of sleep they need."

**Explain:** Therefore, because students don't get the 8 to 11 hours of sleep that they need because they are "sleep texting", it's easy to assume that some may fall asleep because they aren't getting enough rest.
